GENERAL PRODUCT SAFETY REGULATION — (EU) 2023/988

Safety warnings and user information

Safety information provided by Zococity S.L. as the Responsible Person in the European Union, applicable to the range of audio electronics and accessories distributed under the brands indicated on each product page.

Headphones and in-ear monitors | Amplifiers and DACs | Active speakers | Turntables | Radios and portable players | Bluetooth transmitters/receivers | Inline duct fans

Electrical hazard | Lithium battery | Small parts | Intended use

01 · ELECTRICAL Electrical safety

Applies to mains-powered products (amplifiers, streaming receivers, duct fans) and to the power adapters/chargers supplied with portable products.

- Use only the power cable or adapter supplied, or one expressly indicated as compatible in the product manual.
- Do not expose the device, adapter or cable to rain, moisture or splashing. Indoor use only.
- Disconnect from the mains before cleaning the device or if you notice any unusual smell, heat or noise.
- Do not use if the cable, plug or housing shows visible damage.
- Do not open the housing: there are no user-serviceable parts inside. Any internal work must be carried out by qualified technical personnel.

02 · BATTERY Lithium-ion and lithium-polymer batteries

Applies to products with an internal or removable rechargeable battery (portable players, radios, Bluetooth receivers, wireless headphones).

- Charge only with the cable/adapter supplied or one of equivalent specification indicated in the manual.
- Do not puncture, crush, incinerate or short-circuit the battery. Do not expose to temperatures above 45 °C or to flames.
- If the battery swells, overheats or leaks, stop using the product immediately and take it to a battery collection point.
- In products with a removable battery, replace only with a battery of the same type and specification.
- Do not dispose of with household waste: batteries carry the crossed-out wheelie bin symbol and must be taken to a separate collection point.

---

03 · CHOKING Small parts and accessories

Applies to small removable components: ear pads and ear tips, MMCX/2-pin connectors, battery compartment covers, detachable antennas and thin cables.

- Keep out of the reach of children under 3 years: these parts present a choking hazard if swallowed.
- This is not a toy. Supervise use by minors in all cases.
- Store unused accessories in their original packaging when not in use.

---

04 · MECHANICAL Moving parts

Applies specifically to turntables (rotating platter, tonearm) and to duct fans (motorised impeller).

- Keep hands, hair, loose clothing and cables away from the rotating platter or impeller while the device is operating.
- Install the device on a stable, level surface, respecting the ventilation clearances indicated in the manual.
- Disconnect from the mains before handling, cleaning or servicing any moving part.

---

05 · GENERAL Intended use and listening volume

Applies to the whole range of headphones, speakers and amplifiers.

- Household product. Not designed for industrial or outdoor environments unless expressly stated in its technical sheet.
- Prolonged listening at high volume can damage your hearing. Keep the volume at a moderate level and take regular breaks.
- Always follow the instructions in the quick start guide included with the product before first use.
